

An organization that is looking to decommission OpenText Content Server and migrate to another ECM System is faced with a complex and costly project. Gimmel proudly presents a simple and powerful set of tools and processes to enable an organization to decommission the use of OpenText Content Server in a manageable and cost effective manner.

YOU MAY NEED THESE TOOLS IF:

- You currently maintain a Livelink Content Server implementation.
- You wish to partially migrate or fully decommission Livelink Content Server to a new or existing SharePoint environment, or partially to network drives.
- You wish to decrease support and maintenance costs and simplify your Enterprise Content Management stack.

COMMON CHALLENGE	THE GIMMAL MIGRATE SOLUTION
<p>How can I get my documents and metadata migrated out of Livelink Content Server?</p>	<p>Gimmel Migrate Document Migration Tool</p> <ul style="list-style-type: none"> • Tool supports export from Livelink 9.7.1 and Content Server 10+. • Support to import / migrate directly into SharePoint 2010 and 2013, or to a network drive location. • Select what libraries + metadata to migrate from Livelink to SharePoint.
<p>What about my legacy document links, will all my links be broken?</p>	<p>Gimmel Migrate Document Link Redirector</p> <ul style="list-style-type: none"> • Allows your organization to preserve legacy document links from Livelink Content Server. • Once documents are migrated they can be opened via the new or legacy document links.
<p>What about records management (RM) support for migrations?</p>	<p>Gimmel Migrate Consulting Services</p> <ul style="list-style-type: none"> • Let us work with you to advise or enable and configure your SharePoint environment for Records Management use with popular SharePoint Records Management vendor toolsets.
<p>What about the cost and ROI?</p>	<p>Gimmel Migrate Expertise and Tools at the right price</p> <ul style="list-style-type: none"> • Supporting multiple ECM Systems is a costly proposition! • Content Server maintenance and support costs for a mid-sized organization could easily be a quarter of a million dollars per year – which does not even account for the IT staffing resources to administer and support. • The Gimmel Migrate off the shelf toolset is cost effective and enables your organization to fast track Livelink decommissioning implementation and conduct migrations at your own pace.
<p>What about migration planning, environment sizing and implementation?</p>	<p>Get the Gimmel Migrate Consulting Advantage</p> <ul style="list-style-type: none"> • Gimmel is a group of Information Technology professionals that have extensive experience in the ECM and RM spaces. • If your organization requires migration planning and implementation services we can provide you a team to help you achieve your objective of decommissioning Livelink Content Server effectively and efficiently.

WHY SHOULD YOU USE GIMMAL MIGRATE?

We understand that at one time OpenText Livelink Content Server was the right toolset for your organization. With ever-changing technologies, and new business drivers and priorities this may no longer be the case today.

Gimmel Migrate allows you to migrate from Livelink Content Server to SharePoint technology platforms and retire or decommission the use of Livelink Content Server!

BENEFITS TO YOUR ORGANIZATION:

- Easy to use – our migration tools simplify the complicated task of migrating from Livelink to SharePoint
- A low cost solution that provides value – allowing your organization to retire Livelink, reduce administrative maintenance, staffing and licensing costs
- Truth – boost your ROI and reduce costs – Gimmel Migrate enable your organization to achieve seamless and efficient Livelink decommissioning
