

This integration represents a significant advancement in the management of physical records. It transcends a mere feature addition, fundamentally reshaping how our customers oversee their offsite records. Through this integration, clients will achieve unparalleled efficiency, enhanced visibility, and greater control in their records management operations.

Benefits for Corporations and Government Customers

Multi-Vendor Compatibility

Customers can select the best offsite storage (OS) vendor for their needs, as Gimmal Physical integrates seamlessly with O'Neil Software.

Single System of Record

Manage the entire information lifecycle, including inventory stored with various offsite vendors, all in one place.

Consistent Policy Application

Ensure uniform application of policies across all offsite records, regardless of the storage vendor.

Streamline processes by avoiding duplicate data entry, saving time and reducing errors.
